

☒

Diagram 1: An ArrayList<String> containing ["a", "b", "c", "d"] with indices 0-3. A MyIterator points to index 1. A variable myList points to the ArrayList.

☐

Diagram 2: An ArrayList<String> containing ["a", "b", "c", "d", "e"] with indices 0-4. Two MyIterators point to index 0.

☐

Diagram 3: An ArrayList<String> containing ["a", "b", "c", "d"] with indices 0-3. A MyIterator points to index 0, which is crossed out with an X.

☐

Diagram 4: An ArrayList<String> containing ["a", "b", "c", "d", "e", "f", "g", "h"] with indices 0-7. Two MyIterators point to index 1.

✓

**Explanation**  
The element at index 0 has been removed, so the instance of `MyIterator` will end up skipping an element in its iteration.
